**Programming:** SQL, Python (Pandas, NumPy, scikit-learn), DAX, Git (*Familiar with Java, React / TypeScript*)

**Certifications:** Tableau Desktop Specialist (2024), Alteryx Designer Core (2024), Power BI Data Analyst PL-300 (2025)

## WORK EXPERIENCE

Northeastern University, Boston, MA

Sep 2023 - Present

**Teaching Assistant, Data Science / Business Analytics / Information Visualization**

- Support 150+ students in using Tableau, Python, SQL, and Excel to build analytics models and data visualizations
- Deliver lectures, hands-on tutorials, and one-on-one sessions, helping students create insight-driven dashboards
- Troubleshoot data pipeline and visualization issues, reinforcing best practices in BI and problem-solving skills

Bain Capital, Boston, MA (Hybrid)

Jan 2025 - Jun 2025

**Business Systems Analyst Co-op, Data Engineering and Analytics / Real Estate**

(Continued responsibilities from 2024 co-op with expanded scope and leadership roles)

- Acted as an internal BI consultant on projects serving 1,000+ stakeholders across business units, translating business requirements into scalable data solutions and collaborating with clients on iterative development
- Balanced dual team responsibilities while delivering end-to-end BI solutions in an Agile environment
- Designed ad-hoc interactive Tableau dashboards integrating sentiment and geospatial analysis for deal diligence
- Optimized Power BI model reliability by 40% by enhancing data pipelines with API and data lake integrations
- Presented Tableau Cloud evaluation and demo to leadership, comparing Pulse/Agent, Server, and AI capabilities

Bain Capital, Boston, MA (Hybrid)

Jan 2024 - Aug 2024

**Business Systems Analyst Co-op, Real Estate**

- Spearheaded finance reporting automation with Power BI, improving efficiency 25% and documenting solutions
- Built internal tools with Power Automate and Power Apps, streamlining repetitive business processes
- Resolved 200+ Yardi support tickets, translating technical issues for internal and external business users
- Created and optimized SQL/DAX queries and data models for scalable reporting on large financial datasets

## PROJECTS

**Code4Community** ([c4cneu.com](https://c4cneu.com)), React, TypeScript, Recharts, AWS DynamoDB, Prismic CMS

Sep 2024 - Present

- Collaborate with a nonprofit client to deliver a tailored grant analytics dashboard for tracking win rate and costs
- Translate Figma wireframes into a responsive React front-end integrated with custom backend analytics

**Words are Worth a Picture** ([tabsoft.co/3tTsKSF](https://tabsoft.co/3tTsKSF)), Tableau, Python (VADER, Pattern), Excel

Nov 2023

- Analyzed 848K+ data points from text messages, social media, and geolocation data using Python and Excel
- Built Tableau storytelling dashboard revealing communication patterns and sentiment analysis trends over time
